I made my first trip to Kozmo about two weeks after it opened. The place was packed, and Oswald was a gracious host helping seat guests and making his rounds to say hello to every table. I knew immediately that I would become a regular here even before I had the first sip of my Kozmo.

I fell in love with the clean, minimalistic decor, and the menu made my taste buds water. It was tough to narrow down my choices because I wanted to try everything, but I finally decided on the cheese fondue appetizer...which I now order every time I go there. :)

The staff is friendly, professional, and fast, and everything arrives just perfect. During my last visit I finally broke down and ordered a burger...and I'm here to tell you it lives up to its reputation. Juicy and delicious and cooked to perfection.

Other favorites include the steak salad and fish tacos. Their wine selection is also really good, and the servers are wonderful about helping out with pairing choices.

I love having a restaurant with atmosphere, ambiance and style so close to my home. Kozmo is definitely on my regular rotation!

4 stars
4/1/2009

Only gets four stars because I have yet to try the food. However, I had the Alpharetta peach and two other specialty drinks and they were very very good. I'm planning on going back soon because I absolutely have to try the food. It looked and smelled so good. I've heard their wings are the best around so I'm kind of interested in sampling them. Also, half off wine bottles on Wednesdays!! Always a good deal.
